

Une petite liste d'outils pour ESX/ESXi  
avec une \* devant c'est quasi indispensable !!!

\*Monitoring\*

\*Veeam Monitor 3.0

<http://www.veeam.com/esxi-monitoring-free.html>

FREE VM Monitor

[http://www.solarwinds.com/products/freetools/vm\\_monitor.aspx](http://www.solarwinds.com/products/freetools/vm_monitor.aspx)

PRTG Network Monitor

[http://www.paessler.com/vmware\\_monitoring/?](http://www.paessler.com/vmware_monitoring/?)

[utm\\_campaign=GoogleAdwords&utm\\_medium=ppc&utm\\_source=prtg\\_search\\_vmware&adgroup=esx\\_monitor&ad=008&gclid=CLP8vdq6gZoCFYQH3wodZ1mIEQ](http://www.paessler.com/vmware_monitoring/?utm_campaign=GoogleAdwords&utm_medium=ppc&utm_source=prtg_search_vmware&adgroup=esx_monitor&ad=008&gclid=CLP8vdq6gZoCFYQH3wodZ1mIEQ)

SnapHunter (Monitoring Snapshot)

<http://www.phdvirtual.com/component/jdownloads/?task=view.download&cid=8>

vmktree

<http://vmktree.org/>

\*

Gestion système ESX/ESXi (sauvegarde) \*

Veeam FastSCP 3.0

<http://www.veeam.com/vmware-esxi-fastscp.html>

\*Veeam RootAccess Wizard (autoriser SSH)

[http://www.veeam.com/root\\_access/](http://www.veeam.com/root_access/)

\*ESXi-Backup.pl

<http://communities.vmware.com/thread/164134> (réponse du Aug 22, 2008  
3:45 AM )

\*VMX - Trilead VM Explorer

[http://www.trilead.com/Download/Trilead\\_VM\\_Explorer\\_Download/](http://www.trilead.com/Download/Trilead_VM_Explorer_Download/)

VMNetBac (sauvegarde configuration réseau)

<http://www.phdvirtual.com/component/jdownloads/?task=view.download&cid=14>

\*Gestion Disque\*

vmxbuilder.com

<http://vmxbuilder.com/>

\*Installation automatisé\*

KS QuickConfig (Automatisation)

<http://www.phdvirtual.com/component/jdownloads/?task=view.download&cid=7>

\*Replication\*

Virtual SAN (réplication d'images entre deux ESX (comme un SAN))

<http://www.phdvirtual.com/component/jdownloads/?task=view.download&cid=10>

<http://www.virtualisation-news.com/2008/05/xtravirt-virtual-san-une-solution-de-synchronisation-vmfs-synchrone.html>

\*Virtualisation Mobile (gestion des Images sur un mobile)

\*VMM\*

\*<http://files.lostcreations.com/vmm-0.4.44.zip>

\*Addon pour VMware Infrastructure Client\*

GuessMyOS (les logos des OS)

<http://store.hyper9.com/H9Labs-GuessMyOS>

Console (ajout d'une console SSH)

<http://akutz.googlecode.com/files/ConsoleClientSetup-0.1.5.msi>

SVMotion (console vmotion)

[https://sourceforge.net/project/downloading.php?group\\_id=228535&use\\_mirror=&filename=vip.svmotion-bin-1.0.0.0.msi&20447355](https://sourceforge.net/project/downloading.php?group_id=228535&use_mirror=&filename=vip.svmotion-bin-1.0.0.0.msi&20447355)

\*Upgrade VMware Tools\*

\*RVTools (inventaire, upgrade, etc..)

<http://www.robware.net/>

\*Script (à tout faire...)\*

<http://www.virtual-strategy.com/Eric-Siebert-s-Top-10/Top-10-PowerShell-scripts-that-VMware-administrators-should-use.html>

Virtualization EcoShell

<http://www.thevesi.org/index.jspa>

<http://thevesi.org/servlet/KbServlet/download/2352-102-3500/VESI.1.0.0.65.msi>

\*PowerGUI

<http://powergui.org/entry!default.jspa?categoryID=21&externalID=1802>

<http://powergui.org/entry.jspa?externalID=1802&categoryID=290>
